Floating Gas Diffuser

*Designed and Developed in association with Australian winemakers.
We have sourced a range of equipment to eliminate gas wastage and
give flexibility to the gassing process at a low cost*

FOOD GRADE FLOATING PLASTIC DIFFUSER

- Manufactured using food grade plastics and stainless steel
- A two piece construction with clear top for easy cleaning
- Designed to diffuse the gas evenly onto the product surface
- Fully sealed base so it won't sink
- Available with LDPE Self store coiled hose and RR Taylor Turret Fittings

GAS FLOW CONTROL

- The flow meter is calibrated at 600kPa for high accuracy flow rates
- Fine adjustment of flow rate from 0-20 Lpm with needle valve
- 90Lpm maximum flow rate when needle is fully open
- Off to fully open in 6 turns
- Can be used with N₂ and N₂/CO₂ mixed gas
- Standard inlet/outlet 3/8" x 18UNF.
- Can be fitted with RR Taylor quick connect turret fittings

GAS TRANSFER HOSE

- Specially coiled LDPE self storage hose for use with the Floating Gas Diffuser (pictured above)
- The self store LDPE hose is food grade and helps centralise the FGD inside the tank
- Comes in coil that will extend to 30m
- Cut lengths of 10m, 15m and 20m are also available
- UV protected air breathing hose is also available for use outside the tanks from the flow meter to the tank fittings
- Associated fittings and stainless steel hose clamps are also available as stock items
